

REACH Declaration of Conformity

In accordance with Regulation (EC) No. 1907/2006 (REACH)

Issue date: 2025-09-12

Valid: Until superseded by a newer revision

Reference: ECHA Candidate List as published 25 June 2025 (latest update at issue date)

Products Covered

This declaration applies to all 3D-printing filaments marketed by Add North 3D AB (trading as add:north).

Declaration

In accordance with Article 33(1) of REACH, Add North 3D AB confirms that none of its filaments contain any substance included in the ECHA Candidate List of Substances of Very High Concern (SVHC) in a concentration greater than 0.1 % w/w.

Candidate List version referenced: update of 25 June 2025.
ECHA Candidate List: <https://echa.europa.eu/candidate-list-table>

Should any product in the future contain SVHC(s) above 0.1 % w/w, Add North 3D AB will provide the information required under Article 33 without undue delay, including the SVHC name(s) and safe-use information. Consumers also have the right to request such information.

Add North 3D AB continuously monitors updates to the Candidate List and will revise this declaration as necessary.

This Statement of Compliance is issued in good faith, based on our current knowledge and information provided by our suppliers. It supersedes all previous compliance statements related to these materials and remains valid until further revision. This statement applies solely to the material as supplied by Add North 3D AB and does not cover any substances introduced by the purchaser or third parties after delivery.

Disclaimer

This declaration is based on information provided by third parties and on Add North 3D AB's current understanding of REACH (EC) No. 1907/2006, as amended, at the date of publication. If third-party information is incomplete or inaccurate, Add North 3D AB assumes no responsibility or liability regarding its completeness, correctness, accuracy, or reliability. This declaration may be updated if new or revised information becomes available, including changes to the ECHA Candidate List or other REACH requirements. Add North 3D AB assumes no liability for the end application, conditions of use, or articles produced from the products referenced herein, nor for any consequences thereof. The manufacturer of any article made using these products is solely responsible for verifying composition, properties, and regulatory compliance in the jurisdictions where such articles are manufactured, imported, or sold.
